#### **Customer Identification**

As with other professional service firms, we are required to identify our clients for the purposes of the UK anti-money laundering legislation. We are likely to request from you, and retain, some information and documentation for these purposes, and/or to make searches of appropriate databases. If we are not able to obtain satisfactory evidence of your identity within a reasonable time, there may be circumstances in which we are not able to proceed with the engagement.

We offer two ways of providing this evidence:

#### Method One - Electronic verification

You will need to complete a simple form and send to us. We will process the verification process online with Veriphy Limited. The check does **not** leave a hard ofootprinto against the client in the way that credit reports do. This process will minimise delays in obtaining evidence, and you will not be required to show original documents, nor obtain certification. We make a charge of £25, plus VAT for this service. The required form can be found in Appendix One.

#### Method Two - Attendance at our office

You will need to attend, by appointment, during office hours, and bring originals from the list of acceptable documents, which can be found in Appendix Two. We will copy and certify. This procedure will take no more than 15 minutes of your time. Our charge is £35, plus VAT for this service.
